IMPORTANT NOTES

- **Color space should be CMYK.**
Make sure the document color space and all the elements within are set to CMYK, not RGB.
- **Embed all Images.**
Make sure all images are embedded in the document.
- **Stay within the Safe Area.**
No text, or important elements, should extend past the Safe Area dimensions.
- **Be careful of the Trim Size.**
Nothing should end directly ON the trim line. Backgrounds should extend to the full Document Size.
- **Convert all text to vector.**
Rasterize if you're not able to convert to vector. Or, send the font files used in the document to ensure accuracy.
- **Double check dimensions prior to sending your file.**
The dimensions of your finished file should match the Document Size.
